Problem Solving in San Francisco

HSH Providers Conference

December 7, 2018
What is Problem Solving?

A strategy that addresses and prevents homelessness by helping people to:
- Return immediately to housing;
- Without having to enter temporary shelter or a housing program; and
- Utilizes safe and available permanent and temporary housing options.

Problem Solving Definition of Success In San Francisco

A person experiencing homelessness spending one or more nights in a safe location outside of the homeless response system.
Who Does Problem Solving Nationally?

Also called “Diversion” (or Shelter Diversion, Housing Problem Solving)

Includes:
- Connecticut
- Pierce County, WA (Tacoma)

Results
- Often vary by population (families vs singles, on the streets vs at risk of homelessness)
- **Connecticut:** Average 31% of households find alternative housing (26% adults; 52% families)
- **Pierce County, WA:** 52% of families find alternative housing. 10% return for additional assistance within 6 months.

Benefits of Problem Solving

For the household

- A strengths-based/empowerment driven approach; provides help right away; they get a “yes, I can help you now” instead of a “no” or a wait list
- Keeps the person or household in charge of driving their solutions
- Keeps them from entering the HRS (Homeless Response System) unnecessarily and from being labeled homeless
- Prevents the negative impacts of time in shelter or on the street

For the community

- Saves shelter and housing programs for those with highest needs who have no other options
- Supports resolution of homelessness at much lower cost than shelter, Navigation Centers or housing programs
- In some cases, preserves housing in San Francisco

What Problem Solving looks like...

- Always a conversation; partnering to find solutions
- Explores every available option
- Helps people make and execute a plan immediately
- Can also include offers of assistance such as:
  - Eviction Prevention
  - Homeward Bound
  - Family Reunification or Mediation
  - Onetime: Move-in Assistance/Flexible grants
- If we can’t find a solution through problem solving, move on to assessment and possible other assistance
Problem Solving - Where is it happening?

Problem Solving—Where is it happening?

**HOMEWARD BOUND**

- The Homeward Bound program, now housed under the Coordinated Entry/Problem Solving Team, was designed to help reunite people, experiencing homelessness in San Francisco, with family and friends willing and able to offer ongoing support to end the cycle of homelessness.

**YOUTH PROBLEM SOLVING**

- Larkin Street and Huckleberry were awarded funds to start Problem Solving as of November 1, 2018, as we stand up Coordinated Entry for Youth.
It’s A Big Change In Approach!

Good problem solving work includes:

• Belief that it can work and people can find their own solutions
• Comfort with people living in safe, doubled-up situations
• Knowing that an unknown outcome is not necessarily a bad outcome
• Being comfortable with trying creative solutions
• Knowing everyone will receive the conversation but it might not be the right fit, and that’s ok
