

## Family Coordinated Entry

LHCB Subcommittee Meeting November 5, 2019

# What is Coordinated Entry?

# Purpose of Coordinated Entry

Coordinated Entry is the process to help families experiencing homelessness, or at imminent risk of homelessness get from the Homelessness Response System (HRS) the assistance needed to resolve or prevent an episode of homelessness.

## **Key Components of Coordinated Entry**

4

- 1. Access
- 2. Eligibility
- 3. Problem Solving
- 4. Assessment
- 5. Housing

# Coordinated Entry Overview

#### COORDINATED ENTRY & INITIAL SCREENING

Initial

Screening

Access Points will

enroll household

into Coordinated

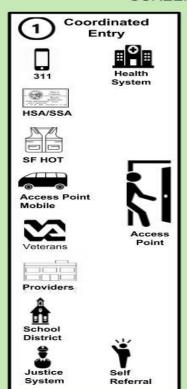

Entry and move on

(not homeless or

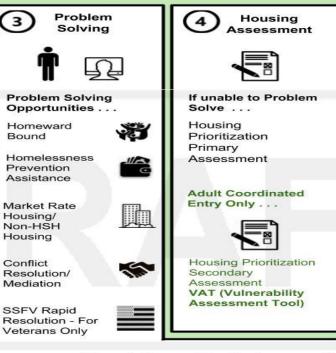

connect household

to the appropriate

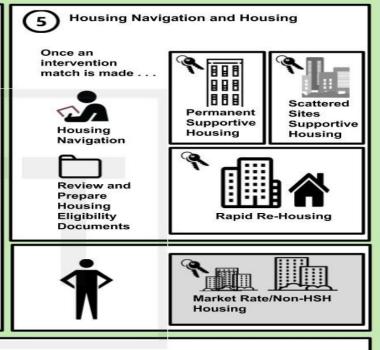

living in another

#### HOUSING OPPORTUNITIES

**Problem Solving - A Constant Resource** 

### Family Access Point Locations

6

- → Current Assessment Locations:
  - Central City Access Point 37 Grove Street (across the street from Main Library)
  - Bayview Access Point 1641 LaSalle Street (in the Bayview)
    - Has a mobile team
  - Mission Access Point 3270 18th Street (in the Mission, cross street is Van Ness)
    - Has a mobile team
  - http://hsh.sfgov.org/services/family-coordinated-entry/

### **Assessment Priority Status**

7

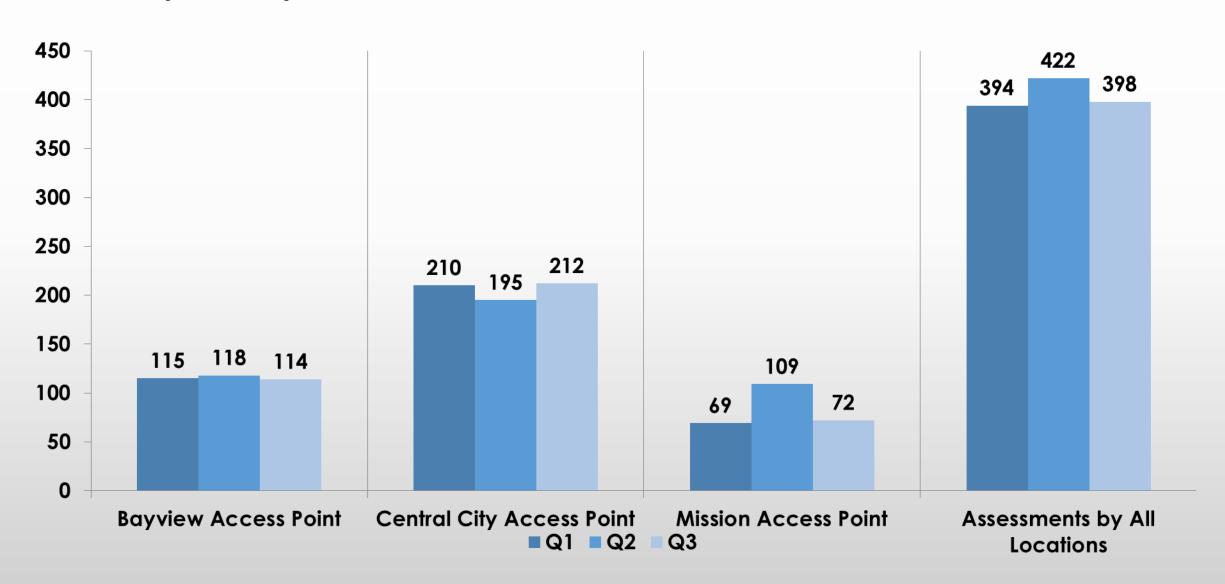

- → Priority Status: Families experiencing homelessness who are prioritized for housing based on their health vulnerability, housing barriers, and homelessness chronicity
- Priority status is determined by the Primary Assessment
- Priority Status households are assessed for the best housing fit
- Non priority status households are referred to problem solving

# Demographics

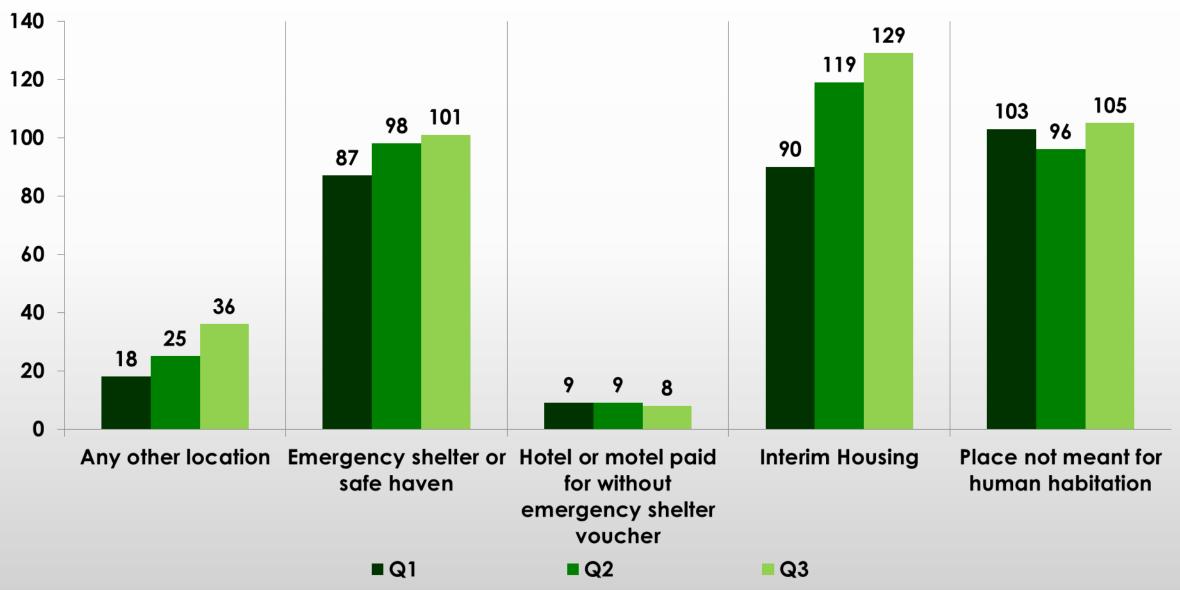

### Total Assessed Families by Access Points: YTD

2019: Quarter 1-Quarter 3

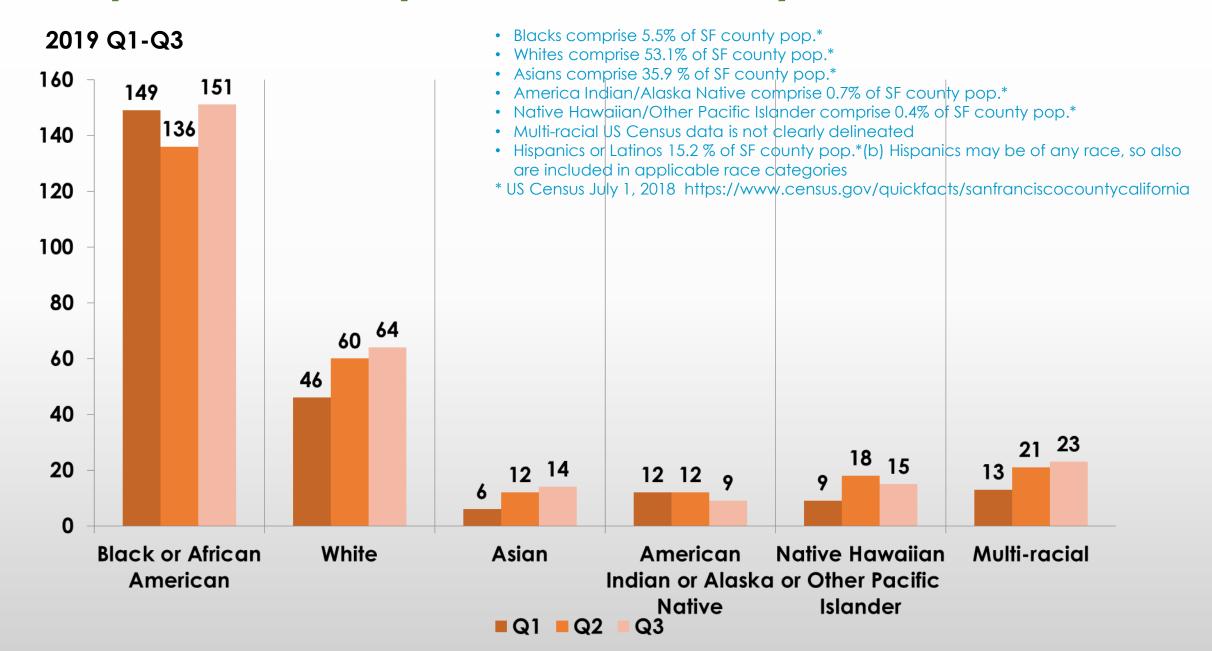

#### Completed Family Assessments by Living Situation: YTD

### Completed Family Assessments by HoH Race

### US Census: Two or More Races, percent

#### Race

**Sources:** U.S. Census Bureau, Population Estimates Program (PEP), Updated annually, Population and Housing Unit Estimates

U.S. Census Bureau, American Community Survey (ACS). Updated annually. American Community Survey

#### About

- ► The Race estimates of the population are produced for the United States, states, and counties by the Population Estimates Program and the race estimates of the population are produced for Puerto Rico, muncipios (county-equivalents for Puerto Rico), places, zona urbanas and comunidades (place-equivalents for Puerto Rico), and minor civil divisions by the American Community Survey.
- The U.S. Census Bureau collects race data in accordance with guidelines provided by the U.S. Office of Management and Budget (OMB), and these data are based on self-identification. The racial categories included in the census questionnaire generally reflect a social definition of race recognized in this country and not an attempt to define race biologically, anthropologically, or genetically. In addition, it is recognized that the categories of the race item include racial and national origin or sociocultural groups. People may choose to report more than one race to indicate their racial mixture, such as "American Indian" and "White." People who identify their origin as Hispanic, Latino, or Spanish may be of any race.
- OMB requires that race data be collected for a minimum of five groups: White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander. OMB permits the Census Bureau to also use a sixth category - Some Other Race. Respondents may report more than one race.

The concept of race is separate from the concept of Hispanic origin. Percentages for the various race categories add to 100 percent, and should not be combined with the percent Hispanic.

13

### US Census: Hispanic or Latino, percent

#### Hispanic or Latino Origin

Sources: U.S. Census Bureau, Population Estimates Program (PEP). Updated annually. Population and Housing Unit Estimates

U.S. Census Bureau, American Community Survey (ACS). Updated annually. American Community Survey

#### **About**

The Ethnicity estimates of the population are produced for the United States, states, and counties by the Population Estimates Program and the ethnicity estimates of the population are produced for Puerto Rico, muncipios (county-equivalents for Puerto Rico), places, zona urbanas and comunidades (place-equivalents for Puerto Rico), and minor civil divisions by the American Community Survey.

The U.S. Census Bureau adheres to the U.S. Office of Management and Budget's (OMB) definition of ethnicity. There are two minimum categories for ethnicity: Hispanic or Latino and Not Hispanic or Latino. OMB considers race and Hispanic origin to be two separate and distinct concepts. Hispanics and Latinos may be of any race. Thus, the percent Hispanic should not be added to percentages for racial categories.

#### **Definition**

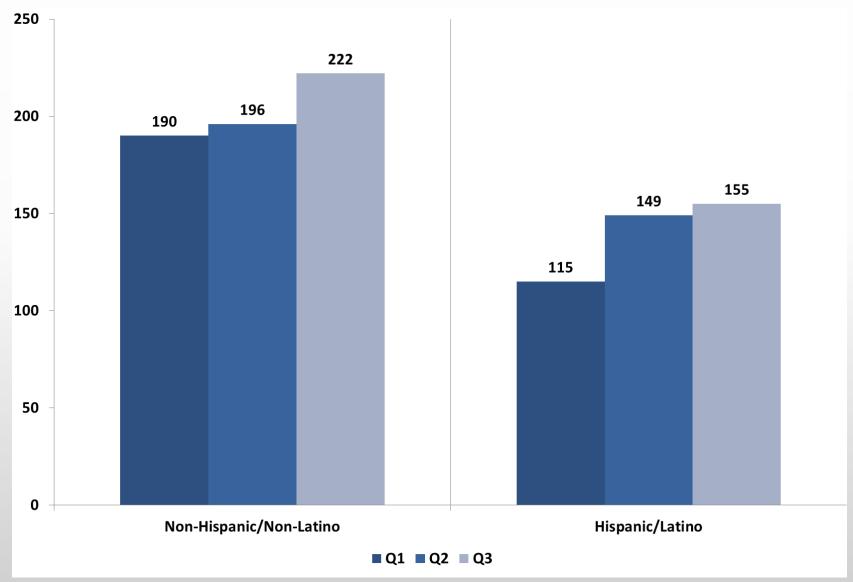

**Hispanics or Latino** refers to a person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin regardless of race. See website for more exhaustive list.

Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States.

Data users should be aware of methodology differences that may exist between different data sources.

### Completed Family Assessments by Ethnicity

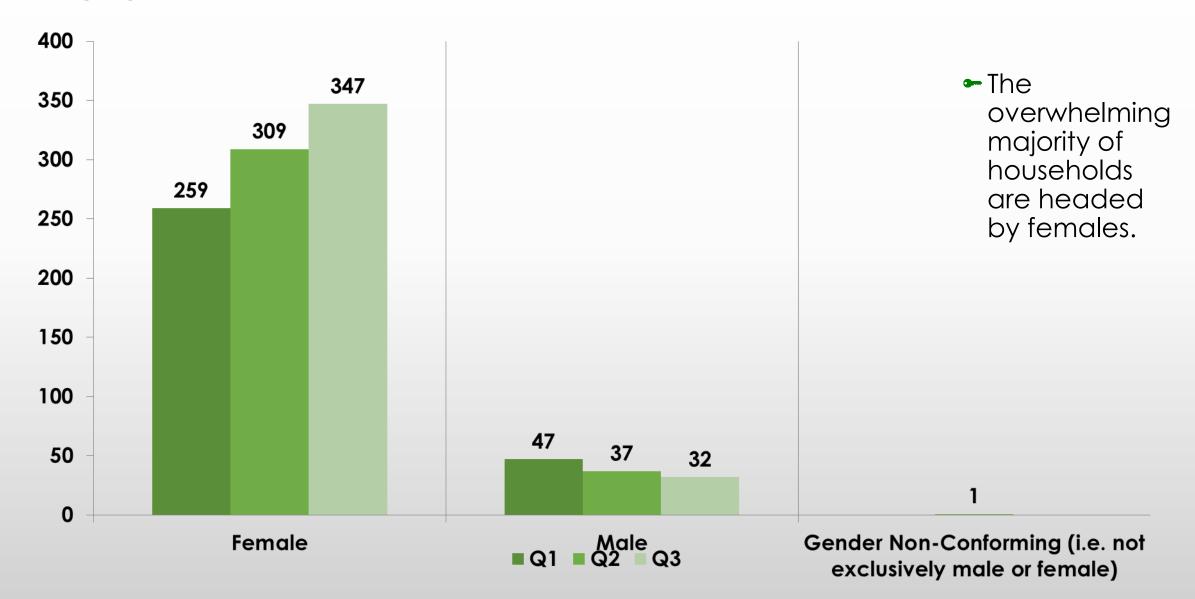

- Non-Hispanic
  Non-Latino
  families
  assessed
  comprised
  55%
- Hispanic & Latino families assessed comprised 44%
