

San Francisco Local Homeless Coordinating Board Coordinated Entry Committee

February 2020

Agenda

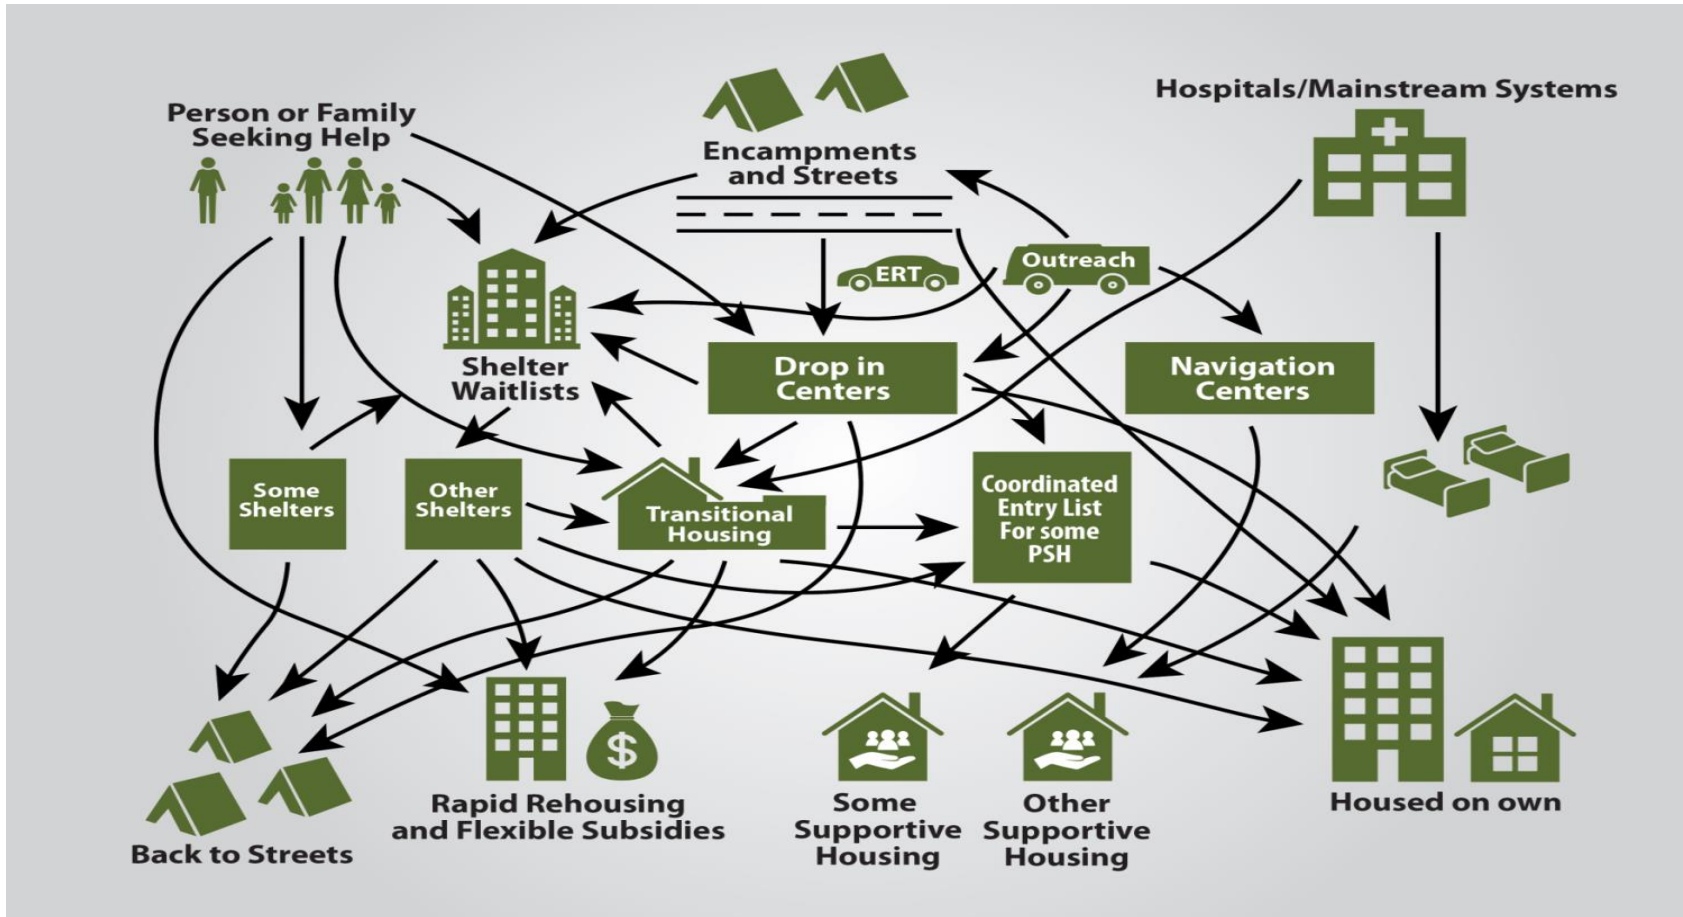

2

- Welcome and Introductions
- Coordinated Entry Update and Discussion
- Shelter in Place Sites Rehousing and Demobilization Plan Update and Discussion
- Public Comment
- Adjourn

Model Programs with No System

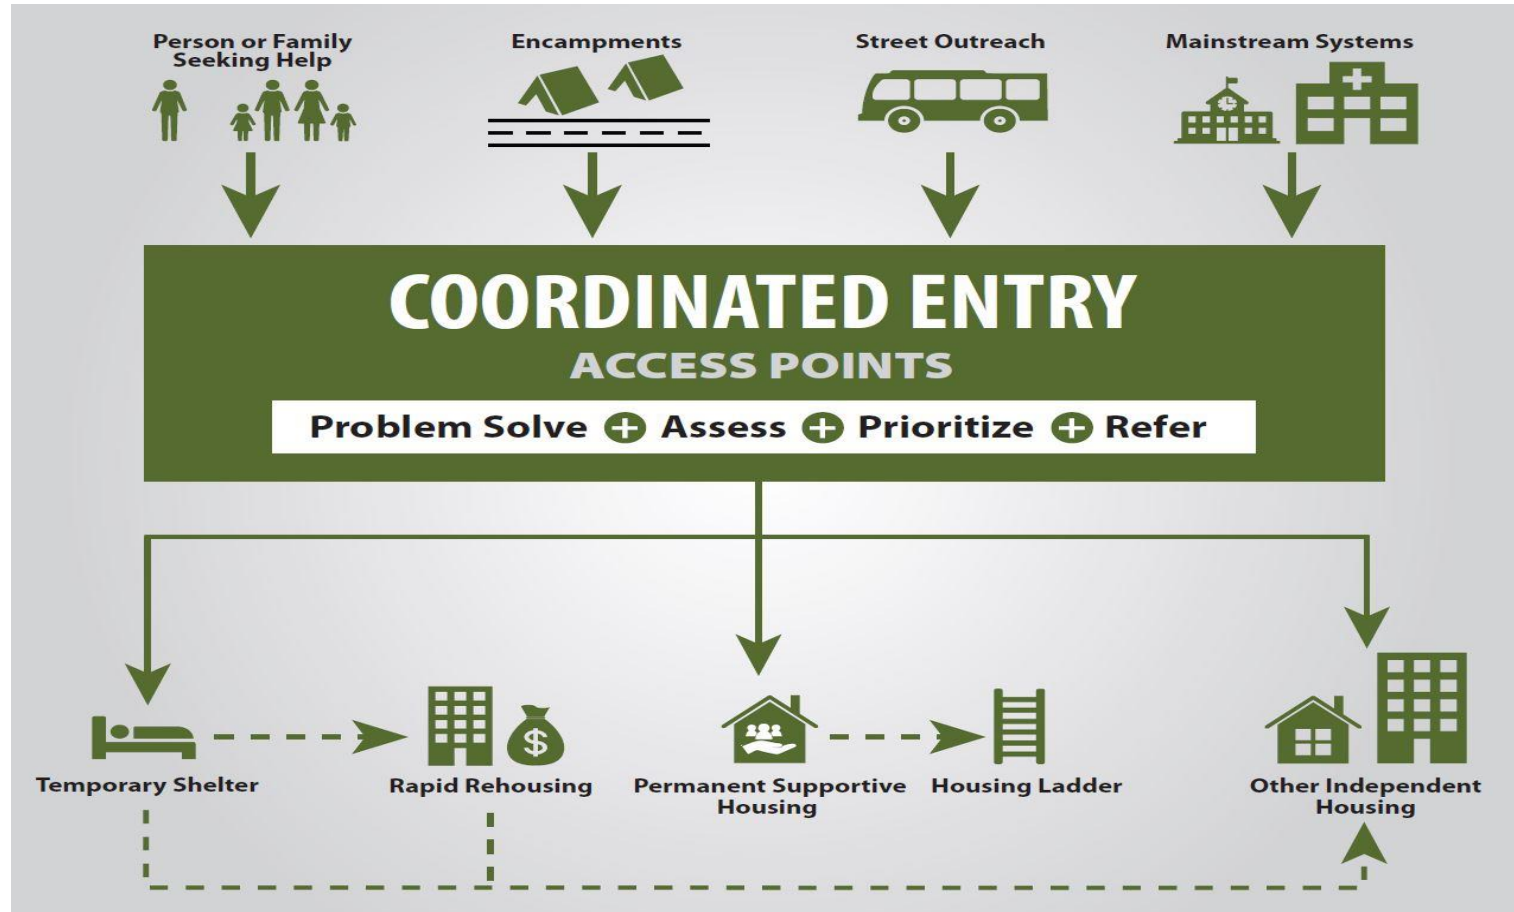

3

Goal State: Model System

4

<http://hsh.sfgov.org>

Problem Solving

5

- Prevent people from entering the Homelessness Response System and to redirect people who can resolve their homelessness without the need for shelter or ongoing support
 - Eviction Prevention
 - Relocation assistance (e.g., Homeward Bound)
 - Family reunification
 - Move-in assistance
 - Flexible Grants

Housing Assessment

6

- HSH Housing Primary Assessment determines whether the household is Housing Referral Status or Problem Solving Status
 - Vulnerability
 - Physical and behavioral health
 - Experience of trauma and violence
 - Use of crisis services
 - Homelessness history: duration and frequency of homelessness
 - Barriers to housing, including legal issues, income and other resources

Housing Referral Status

7

- **Housing Referral Status:** people experiencing homelessness who are prioritized for housing based on their health ***vulnerability, housing barriers, and chronicity of homelessness***
 - Housing status is determined by the Assessment Process
 - These households are assigned a housing navigator who will match the household with available housing
- **Problem Solving is a continuous resource**
 - Problem solving status households will not be referred to HSH-funded permanent housing, but are offered problem solving resources (as listed on an earlier slide)

Coordinated Entry Clinical Review

8

- Provides an administrative review process for clients who cannot adequately self-report their own history with homelessness, barriers to housing, or vulnerability
- Clients complete a Housing Primary Assessment prior to clinical review
- Available to any provider with a relationship with the client, ideally a case manager
- Contact hshclinicalreview@sfgov.org

<http://dhsh.sfgov.org>

Using Department of Public Health Data for Prioritization

9

- In January, HSH and our partners at DPH Identified 146 SIP Rehousing Guests as Housing Referral Status based on their DPH data
 - Source: CCMS records matched to the SIP Rehousing co-hort
 - Methodology: scored using the HSH Housing Primary Assessment criteria and scoring rubric with available data.
 - Limitations: only CCMS data was used
 - Guests who are prioritized by completing the Housing Primary Assessment/Clinical Review, or Public Health Data are all Housing Referral Status

Prioritization Impacts

10

Previous Assessment

- Client changed from Problem Solving Status to Housing Referral Status
- Also Prioritized by Housing Primary Assessment or Clinical Review
- No Previous Active Assessment

Key Demographics

11

- The prioritization of all people of color in this group was similar to the total proportion of people of color in the full SIP Rehousing cohort
- Black people were more likely to be Housing referral status than people of other races
- Transgender and Gender Non-Conforming (TGNC) proportion was comparable to representation of TGNC people in the full SIP Rehousing cohort
- Sexual Orientation was not available in this data

Homeless Recovery Plan

12

1. Expand Permanent Supportive Housing through 4,500 placements over 2 years

- Purchase & lease 1,000 new PSH units in FY2020-21
- Acquire additional 500 PSH units in FY2021-22
- Place 1,500 individuals into existing turnover or pipeline PSH units each year (3,000 total)
- Expand Prevention, Diversion, Rapid Rehousing, and other housing interventions

Homeless Recovery Plan

13

2.SIP Rehousing

- Rehouse 2,200 individuals in SIP hotels through Homeless Response System, prevention, problem-solving, rapid rehousing and other interventions as planned

3.Shelter Reactivation and Recovery

- Reactivate adult congregate shelter system up to 1,000 beds at COVID-safe capacity by August 2020
- Continue shelter expansion projects 1925 Evans and 888 Post
- Fully reinflate the shelter system to approx. 2,100 beds when safe to do so
- Permanently sustain RV capacity
- Maintain Safe Sleep program as funded

<http://dhsh.sfgov.org>

SIP Rehousing Plan

14

- SIP Rehousing Plan is a component of the Mayor's Homeless Recovery Plan
- In November and December HSH conducted significant community engagement to inform the development of the SIP Rehousing Plan.
- HSH is using Pandemic Prioritization as a mechanism to implement the SIP Rehousing Plan.
 - A process that identifies what housing resources are appropriate for each guests based on their COVID-vulnerabilities and participation in the SIP program.

SIP Rehousing Plan

15

In order to Rehouse

- 1,500 new units of Permanent Supportive Housing (PSH)
- 1,500 placements into existing PSH pipeline
- 1,500 placements into existing PSH units where turnover occurs
- Expand Problem Solving
- Create medium-term housing solutions for Adults

In order to take care of those still on the streets or becoming homeless

- Expand Homelessness Prevention
- Reactive Congregate Shelter to the COVID informed capacity of ~1,000 beds in the adult system (~2,000 beds pre-COVID)
- Expand Congregate Shelter: Open Bayview SAFE Navigation Center and Lower Polk TAY Navigation Center in early 2021
- Maintain Safe Sleep

SIP Rehousing Plan Data

16

- Extensive Data about the SIP Rehousing Plan is available online at: <https://data.sfgov.org/stories/s/COVID-19-Alternative-Housing-Rehousing-SIP-Hotel-G/6ugi-a5jp#sip-hotel-guests-who-are-the-guests-in-the-sip-hotel-rehousing-cohort->

Pandemic Prioritization

17

- In response to the COVID-19 Pandemic the City opened 25 Shelter in Place hotels to provide non-congregate shelter to COVID vulnerable people experiencing homelessness.
- **The City is dedicated to ensuring people in SIP hotels as of November 15, 2020 exit to housing.**
- Therefore, a new housing placement prioritization system is temporarily needed.
- HSH is building off the existing Coordinated Entry System to guide the housing assessment and placement of people in the SIP hotels.

Pandemic Prioritization

18

- The Pandemic Prioritization is a temporary process that will:
 - Keep people who are COVID vulnerable safe during the pandemic
 - Prioritize SIP guests with COVID vulnerabilities, who would regularly be Problem Solving Status, for scattered site subsidized housing or rapid rehousing.
 - Prioritizes SIP guests over 60 for the Flexible Housing Subsidy Pool
- Criteria is based on age and COVID vulnerability, not the HSH Housing Primary Assessment

SIP Rehousing Plan Pandemic Prioritization

Prioritization Category	Description of Population	Exit Strategies	Estimated Population
A. Housing Referral Status	People in SIP sites who are assessed as Housing Referral Status, including those with COVID vulnerabilities and those who are not COVID vulnerable but are prioritized through the Coordinated Entry assessment	<ul style="list-style-type: none"> • Adult PSH, including scattered site PSH • TAY PSH or RRH • Family PSH or RRH • Senior PSH, including scattered site PSH 	40%
B. Pandemic Prioritization: 60+ COVID Vulnerable	People in SIP sites who are not Housing Referral Status but are COVID vulnerable due to age (age 60+)	<ul style="list-style-type: none"> • Senior scattered site PSH 	25%
C. Pandemic Prioritization: COVID Vulnerable <60	People in SIP sites who are not Housing Referral Status but have a medical condition making them COVID vulnerable and are under the age of 60.	<ul style="list-style-type: none"> • Adult RRH • TAY RRH • Family RRH 	25%
D. Problem Solving Status, Non-COVID Vulnerable <60	People in SIP sites who are not Housing Referral Status and not COVID vulnerable	<ul style="list-style-type: none"> • Problem Solving rental assistance grant (Diversion Plus) 	10%

COVID Vulnerable Criteria: Pandemic Prioritization

20

- Cancer
- Chronic kidney disease
- Obesity (body mass index [BMI] of 30 or higher)
- Pregnancy
- Serious heart conditions, such as heart failure, arrhythmia, pulmonary hypertension, coronary artery disease, or cardiomyopathies
- Sickle cell disease
- Solid organ transplant
- Type 2 diabetes mellitus
- Blood and bone marrow transplant
- COPD (chronic obstructive pulmonary disease) and people who are oxygen-dependent
- Cystic fibrosis
- End stage liver disease
- Immune deficiencies
- Type 1 diabetes
- Uncontrol HIV (with CD4<200/14%, detectable VL)

Pandemic Prioritization Timeline

21

🔑 **December and January 2020-2021:**

- HSH communicated with all SIP guests encouraging them to connect with care coordinators to begin the rehousing process.
- HSH and DPH work in partnership to identify all SIP guests by their age and COVID vulnerability

🔑 **January 2021:**

- Outreach to guests, providers and public

🔑 **February & March 2021:**

- Pandemic Prioritization-informed housing match begins
 - Seniors over 60 (Category B) Senior scattered site PSH
 - People under 60 who are vulnerable to COVID (Category C) to Rapid Rehousing*

SIP Rehousing: Families and Youth

22

- Families in the SIP Rehousing cohort will be matched with existing family rapid rehousing resources
- Youth in the SIP Rehousing cohort will be matched with existing Rapid Rehousing resources for youth

Impact on Housing Referral Status

23

- Housing Referral Status adults who are not in a SIP Hotel will face a delay in housing placements.
- The youth system will be impacted minimally.
- The family system will be impacted minimally.

Summary of SIP Rehousing

24

- Pandemic Prioritization will help ensure that people who are in SIP hotels (by Nov 15th) do not exit to the streets (SIP Rehousing Cohort)
- Ensure that COVID vulnerable people within SIP hotels are prioritized for housing placement
- Centers the vision that housing is healthcare which is more critical than ever during the COVID-19 Pandemic
