San Francisco and the Bay Area are in the middle of a housing affordability crisis.

Approximately **8,000 people are unhoused** in San Francisco. In 2019 there were over **200 homeless families with children**.

94% of homeless families are sheltered in the City’s family shelter system.

Every day, the City provides **housing and shelter to over 14,000 people**.

The pandemic reinforced that housing is both health care and the solution to homelessness.
Homelessness

- Nationally, and locally, 70-80% become homeless in their home region.
- Homelessness is correlated to affordability and income inequality.
- Housing prices nationally have quadrupled since 1980 and rents have doubled.
- Homelessness is a racial equity issue.
- The majority of homeless families are households headed by single women and have children under the age of six.
- Nationally and locally, homeless families are similar to other families living in poverty (demographically & in terms of needs).
- Eradicating family homelessness in SF is an achievable goal.

http://hsh.sfgov.org
Prop C, passed by San Francisco voters in November 2018, created the Our City, Our Home (OCOH) Fund to expand programs to prevent and end homelessness.

The State allocated $2.75 billion in the budget for Project Homekey funds to support the acquisition of permanent housing.

As part of the Mayor’s Homelessness Recovery Plan, the City is committed to acquiring 1,500 new units of permanent supportive housing.

- To help meet that goal, the City is proposing to purchase 333 12th Street to add up to 200 units of affordable housing for families with children.
- Provide permanent housing with services where people can stabilize and thrive.

http://hsh.sfgov.org
Homeless Response System
Permanent Supportive Housing (PSH) is affordable housing with onsite supportive services. Tenants have their own units and their own leases.

- HSH administers locally and federally funded supportive housing to provide long-term affordable housing to people exiting homelessness.

- The City currently funds ~10,000 units of PSH for families, TAY and adults.

- All referrals to HSH’s Permanent Supportive Housing are managed through the Homelessness Response System’s Coordinated Entry system.

- PSH is extremely effective at stabilizing the lives of its tenants. PSH tenants have less than a 2% eviction rate.
